

Model " Match wooden legs" in classic style , it is entirely assembled with prime quality materials. Side panels are made in poplar plywood coming from controlled plantations, replaced after the cut, and grown up to ten years of life, in this way we avoid natural plant deforestation. Inside it is entirely covered in white plastic laminate 1,2 mm thick which grant fast rebound and resistance to any hit. Aluminium T profiles are placed on the edge and rounded corners to protect and give elegance to the cabinet. Reinforced Legs made in solid wood and varnished with walnut taint
